lifeguarding: prevention, surveillance, response and rescue, emergency care, and workplace safety and professionalism. StarGuard: Best Practices for Lifeguards provides specific strategies for decision making. With this authoritative yet accessible guide you will learn the following: • Strategies for reducing risk at recreational aquatic venues • Essential skills for response and rescue, including how to perform land-based assists and water-based rescues • How to recognize indicators of and critical events that can lead to distress and drowning • Emergency care skills in the event of a drowning, injury, or illness, including suspected spinal injuries • Techniques for adapting lifesaving skills for special situations, such as single-guard facilities, inflatable play structures, special events, or lifeguarding individuals with disabilities • Approaches for dealing with bodily fluids and fecal contaminations to reduce the risk of recreational water illness (RWI) • Updated fifth edition contains the latest research on best practices in lifeguarding and emergency care, including the most current CPR/AED first aid content based on international guidelines. From surveillance to prevention and emergency care, StarGuard: Best Practices for Lifeguards, Fifth Edition, covers all aspects of lifeguarding in an easy-to-understand format. Together, the text, online resource, and hands-on training course prepare lifeguards with the decision-making, emergency response, and first aid skills necessary for preventing water emergencies and saving lives. Additionally, StarGuard: Best Practices for Lifeguards provides the foundation for the operational policies, procedures, and guidance delivered through the StarGuard Elite complete aquatic safety and risk management system available to aquatic facilities.

CPR/AED for the Professional Rescuer

RCP DEA. Primero Auxilios A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games.

PALS Pocket Reference Card The First Aid Manual is the UK's only fully authorised first aid guide, endorsed by St John Ambulance, St Andrews's First Aid and the British Red Cross and packed with step-by-step first aid advice. Used as the official training manual for the UK's leading first aid organisations' courses, the bestselling First Aid Manual covers all aspects of first aid, from emergency first aid and first aid for babies and children, to the latest guidelines on resuscitation, helping a drowning casualty, and snake bites. Find out how to treat over 100 different conditions from splinters and sprained ankles to strokes and unresponsiveness and how to use essential equipment including a defibrillator. Step-by-step photography, all shot in situ to reflect real-life issues, shows you what to do in any situation. The ideal first aid book for you and your family, keep the First Aid Manual handy; it could be a life-saver. (Previous edition ISBN 9781409342007)

Mastery of ACLS Provides tips and guidelines for babysitters, including the basics on how to care for children, what to do if a child needs first aid, and how to stay safe while babysitting.

Pediatric Advanced Life Support This New American Red Cross CPR/AED for the Professional Rescuer Participants Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen.

The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. A didactical training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuerto the responsibility to save lives.

CPR, AED, First Aid Instructor Manual

Emergency Medical Response Here's a reason for parents to take a time out—and read up. Loving discipline pulls together everything every parent wants to know about today's most important, most effective discipline techniques. This easy-to-follow, dynamic book provides an overview of the classic authoritative-authoritarian-permissive styles. Then it draws from specific loving discipline approaches—a unique style to the personal qualities and the personal style of the child. This book is much more than a simple how-to parenting guide.

Pediatric First Aid and CPR RCP DEA. Primero auxilios cuaderno del alumno

Emergency Medical Services The leader in the field, Emergency Medical Responder, Ninth Edition, provides clear first responder-level training for fire service, emergency, law enforcement, military, civil, and industrial personnel. The new ninth edition retains many successful features from previous editions and includes new topics and concepts that have recently become part of most Emergency Medical Responder programs. The foundation of this text is the new National Emergency Medical Services Education Standards for Emergency Medical Responder, and it also includes the 2010 American Heart Association guidelines for Cardiopulmonary Resuscitation and First Aid.

NSC Pediatric First Aid, CPR, & AED

HeartSaver AED

Pediatric Advanced Life Support Provider Manual (International English) Mastering ACLS, Second Edition will help health care professionals successfully complete the American Heart Associations Advanced Cardiac Life Support course and certification exam. This quick-review outline-format study guide covers the core knowledge and skills needed for ACLS—including detailed, illustrated life support techniques, core case studies, arrhythmias, defibrillation procedures, I.V. techniques, cardiovascular pharmacology, myocardial infarction, and special resuscitation situations. Now in full color, this edition features 200 illustrations and algorithms, expanded chapter quizzes, a comprehensive test, expanded information on automated external defibrillators, and additional case scenarios in the Megacode and other chapters. A new appendix reviews Basic Cardiac Life Support guidelines.

ACLE Study Guide - E-Book Part of a series of titles authored by the National Safety Council, First Aid: Taking Action covers the material required for a semester-long Advanced First Aid course. The focus is teaching how to recognize and act in any emergency and to sustain life until professional help can arrive. Other information includes bleeding control, and first aid for sudden illnesses and injuries. Information is presented in a concise, easy-to-read manner that works as a handy reference after the course. National Safety Council programs and products are designed to benefit all types of learning styles by combining lectures, video presentations, group discussions, and hands-on training.

HeartSaver Bloodborne Pathogens Student Workbook The fourth edition of StarGuard: Best Practices for Lifeguards presents the essentials of lifeguarding, helping lifeguard candidates become skilled and proactive. This resource contains the latest research in lifeguarding and lifesaving, including the most current CPR/AED and first aid content. Integrating each of these components into an experiential methodology of training lifeguards is a hallmark of the StarGuard certification program.
